

Privacy Policy

Scope of application

This privacy policy is only valid and active for services on which this privacy policy is provided by Pit Forest UG (haftungsbeschränkt). It is not valid and active for third party websites and platforms, operated by third party companies and organisations, to which we link.

PitForest UG (haftungsbeschränkt) is not liable for the safety of personal data that is presented by services of third parties, because PitForest UG (haftungsbeschränkt) does not monitor or operate these services.

What kind of personal data do we collect?

We collect personal data that is necessary for the use of the respective products and services. This data is used to enable the use of the products and services and, if necessary, to be able to create an account (cf. § 15 (1) TMG).

Among other things, this is the so-called IP address (which is anonymized before storage). The IP address is a number that allows a computer network to identify and reach your computer.

Some services and products require registration. The user must specify the following data when registering:- Name

- E-Mail address

- Password

- Language / Localization

In addition, some products and services offer the possibility to process the registration and login via an external provider. If these are used, the following data will be stored:

- The data returned by the external provider

- A unique identification number

- The name of the external provider

This data, forwarded by the external provider, is used to register with the product or service being used. If the external provider is reused for a login, the unique identification number allows a unique assignment of users.

When using services (such as the purchase of premium currency, items, etc.), the necessary data for the transaction is recorded. This data is:

- When buying a virtual game item via premium currency
 - Identification of the game object
 - Price in premium currency

- Date of transaction
- Unique user identification
- When purchasing premium currency via a third party (Paypal, Kongregate, ...)
 - Identification of third party supplier
 - Number of units purchased in the premium currency
 - Price of transaction (without currency)
 - Currency used
 - Date of transaction
 - Unique user identification
 - Country identification, if provided by third party provider
 - All the additional data the third-party provider sends with a transaction

Under which circumstances is personal data collected?

Your personal data is collected when you interact with our services or contact us.

Personal data is collected when you:

- Use one of our services
- Contact us
- Share information on our social media channels
- Change or give names to savegames that are stored in our cloud-based savegame system

How does PitForest UG (haftungsbeschränkt) collect information?

- Cookies

Pit Forest uses Cookies to guarantee successful operation of our services.

Cookies are small files which are stored on a user's computer when visiting websites, and are used to store information within them.

Pit Forest does not use cookies to store any confidential data like name, e-mail address or other information which may be used by third parties to identify the user. Cookies are used to allow Pit Forest to identify users and to store information about the visit.

Pit Forest may and will use cookies when a user visits our websites or uses our products to provide content or analysis tools provided by Pit Forest.

Your browser provides the ability to disable cookies or settings to be notified when a cookie is sent to your computer. However, this may affect the ability to access certain features of our services. Please check the "Help" menu of your browser to find out how to change your cookie settings.

Deletion of the cookies can lead to a loss of data on games, if these have only been saved locally.

To delete cookies, please contact the support of your Internet browser.

- IP addresses

For security purposes, PitForest UG (haftungsbeschränkt) stores the Internet Protocol (IP) addresses of each visitor in a server log on the web servers.

- Other resources

When using the services of Pit Forest UG, analysis tools are used to collect personally identifiable information about the habits, behaviors and use of our services by the user.

This information is collected in order to adapt the services to the interests of the users and to ensure a better quality of these services.

The information collected may include:

The unique identifier of the device, internet provider, carrier, unique device identity including MAC address, browser information, operating system, hardware information, localization data, date and duration of use of the services, score, game data, results, ranking lists, monetarisation rate or other comparable information.

- Local Storage

With Local Storage, web applications can store data locally in the user's browser.

Unlike cookies, the memory limit is much larger (at least 5 MB) and information is never transferred to the server.

Information in Local Storage can only access the domain from which the information originates.

Google Analytics

This website uses Google Analytics, a web analysis service of Google Inc, (1600 Amphitheatre Parkway Mountain View, CA 94043, USA; "Google"). The use includes the "Universal Analytics" operating mode. This facilitates the assignment of data, sessions and interactions across several devices to a pseudonymous user ID and thus the analysis of a user's activities across devices. This data protection notice is provided by www.intersoft-consulting.de.

Google Analytics uses "cookies", which are text files placed on your computer, to allow the website operator to analyze how users use the site. The information generated by the cookie about your use of this website is usually transferred to a Google server in the USA and stored there. However, if IP anonymisation is activated on this website, Google will reduce your IP address within Member States of the European Union or in other states party to the Agreement on the European Economic Area beforehand. Only in exceptional cases will the full IP address be transmitted to a Google server in the USA and shortened there. The IP address transmitted by your browser in the context of Google Analytics is not merged with other Google data. On behalf of the operator of this website, Google will use this information to evaluate your use of the website, to compile reports on website activity and to provide the website operator with other services related to website and Internet use. Our legitimate interest in data processing also lies in these purposes. The legal basis for the use of Google Analytics is § 15 para. 3 TMG and Art. 6 para. 1 lit. f GDPR. Sessions and campaigns are terminated after a certain period of time. By default, sessions are closed after 30 minutes without activity and campaigns after six months. The time limit for campaigns may not exceed two years. For more information on terms of use and data protection, please visit <https://www.google.com/analytics/terms/gb.html> or <https://policies.google.com/?hl=en>.

You may refuse the use of cookies by selecting the appropriate settings on your browser, however please note that if you do this you may not be able to use the full functionality of this website. You can also prevent Google from collecting the data generated by the cookie and relating to your use of the website (including your IP address) and from processing this data by Google by downloading and installing the <https://tools.google.com/dlpage/gaoptout?hl=en> Browser Add-on. Opt-out cookies prevent the future collection of your data when you visit this website. To prevent Universal Analytics from collecting data across several devices, you must opt-out on all systems used. If you visit <https://www.pitforest.de/opt-out.html> here, the opt-out cookie will be set.

Will my personal data be passed on to third parties?

The personal data relating to the services of PitForest UG (haftungsbeschränkt) are not passed on to third parties.

What other data is collected?

In order to provide better service when program errors happen, some of the services provided send information to Pit Forest servers when errors occur. These contain only data related to the relevant program. These consist of a stacktrace and a collection (log) of the last user interactions with the service.

When games are played using third-party providers, information about scores may be sent to the third-party provider, for example, to fill highscore lists.
